01 · HOME

Home — *the first impression*

The arched sinker cypress entry, the brand promise, and four reasons to choose Acadian.

ACADIAN
WINDOWS & DOORS

Collections · Specialty Windows · Our Woods · Design Your Door · Service Areas · REQUEST A CONSULTATION

CUSTOM ARCHITECTURAL MILLWORK

Windows & doors, *milled for the life of your home.*

Beautiful, one-of-a-kind designs custom chosen by you. Crafted from the finest woods, including rare Louisiana sinker cypress, and built to your exact wants.

DESIGN YOUR DOOR | EXPLORE OUR WOODS

◇ Made to measure ◇ Rare & reclaimed woods ◇ Heirloom joinery

Shown: Arched double entry in sinker cypress, unlacquered brass hardware

I
Truly Custom
No catalogs, no standard sizes. Every piece is drawn and milled for your opening.

II
Rare Woods
From river-recovered sinker cypress to reclaimed heart pine, chosen by you.

III
Built to Last
Traditional mortise-and-tenon joinery made for Louisiana heat and humidity.

IV
Highest Quality
Hand-finished details, period-correct profiles and hardware worthy of the wood.

02 · COLLECTIONS

Collections — *every opening, made by hand*

Entry doors, arched windows, French doors and casements, each drawn in a different wood.

THE COLLECTIONS

Every opening, *made by hand*

From grand arched entries to delicate fanlight windows, each design starts with your home's architecture and ends with your signature.

Grand Entry Doors

Arched, segmented or square-top entries with sidelights, fanlights and hand-carved panels.

START A DESIGN →

Arched & Fanlight Windows

Radius-top casements and true divided lites that bring Old World character to any façade.

START A DESIGN →

French & Gallery Doors

Full-lite French doors that open your rooms to the gallery, the courtyard and the breeze.

START A DESIGN →

Casement & Transom Windows

Classic casements with transoms above, sized and profiled to match your home's history.

START A DESIGN →

Specialty Windows — *shapes no catalog carries*

Round, oval, gothic and sunburst windows, introduced with a rose oculus set in a gable wall.

SPECIALTY WINDOWS

Circles, ovals & *shapes no catalog carries.*

Round oculus windows, French Creole œil-de-bœuf ovals, Gothic lancets and sunburst demilunes. These are the windows people slow down on the street to admire, and the ones most shops won't touch.

Every curve is laid out full size and built up from glued segments or bent laminations, then hand-shaped so the joints disappear and the frame stays true for generations.

Any shape

Round, oval, octagonal, pointed, lobed or one you sketch

Any glass

True divided lites, leaded, cathedral amber or antique green

Fixed or operable

Stationary, pivoting or hinged to open

Perfectly matched

Milled from the same wood as your doors

DESIGN A STATEMENT WINDOW

Shown: Rose oculus in sinker cypress with cathedral amber glass

04 · THE STATEMENT COLLECTION

The Statement Collection — *eight signature shapes*

Oculus, Œil-de-Bœuf, rose, quatrefoil, gothic lancet, octagon, demilune and eyebrow windows.

THE STATEMENT COLLECTION

Windows that *become the landmark*

Eight of our favorite shapes to start the conversation. Each can be made in any size, any wood, and any pattern of muntins and glass.

Wagon Wheel Oculus

Eight spokes and a turned hub. The quintessential gable window.

Œil-de-Bœuf

The "bull's-eye" oval of French Creole architecture, with a classic cross and ring.

Rose Window

Concentric rings and rosettes glowing with cathedral amber glass.

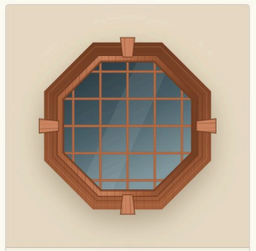

Quatrefoil

A four-lobed Gothic Revival accent in leaded antique green glass.

Gothic Lancet

A pointed-arch window with radiating tracery, made for chapels and stair halls.

Octagon

Crisp and geometric. Beautiful in a stairwell, bath or dormer.

Sunburst Demilune

A half-round fanlight to crown an entry, a window, or an interior arch.

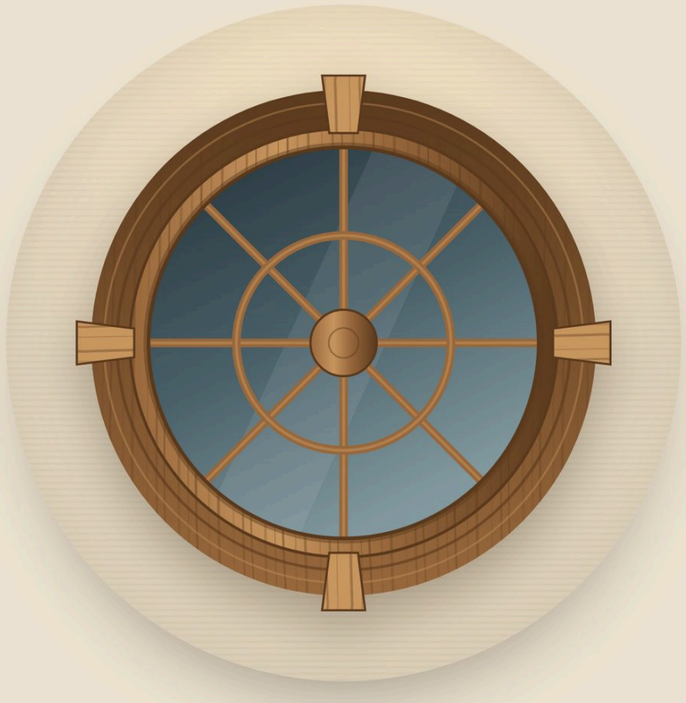

Eyebrow

A long, gentle curve that softens a roofline or tops a run of windows.

05 · DESIGN A STATEMENT WINDOW

Design a Statement Window — *your shape, your story*

An interactive designer: 7 shapes, 6 muntin patterns, 3 glass styles and 6 woods.

Oculus · Wagon Wheel · Clear Glass · Sinker Cypress

DESIGN A STATEMENT WINDOW

Your shape, *your story.*

Mix a shape, a muntin pattern, the glass and the wood. Your real window will be drawn to your exact opening.

06 · SINKER CYPRESS

Sinker Cypress — *Louisiana's legend*

A featured story on the rare river-recovered wood: its history, durability and beauty.

FEATURED WOOD

Sinker Cypress, *Louisiana's legend.*

Over a century ago, old-growth bald cypress logs bound for the mill slipped beneath the rivers and bayous of Louisiana. Preserved in cool, oxygen-poor water, they waited, absorbing the minerals that give sinker cypress its rich, one-of-a-kind color.

Today these logs are carefully recovered and slowly dried. The result is a wood that is hard to come by and celebrated across Louisiana for its **long life expectancy, strength and natural resistance to rot and insects**, not to mention the beauty we all love.

"Want sinker cypress? We've got you covered."

Old-Growth	Durable	Unique
Tight, dense grain	Naturally rot resistant	No two boards alike

DESIGN IN SINKER CYPRESS

07 · OUR WOODS

Our Woods — *choose the wood*

Six species with their grain shown. Clicking one previews it on the door.

OUR WOODS

Choose the wood, *we'll do the rest*

Each species has its own character. Select one to see it on your door below, or ask us about something you have in mind. If it can be found, we'll find it.

RIVER-RECOVERED · LOUISIANA

Sinker Cypress

Old-growth cypress recovered from Louisiana waters. Rich, mineral-toned color, legendary durability.

SIGNATURE

RECLAIMED · LONGLEAF

Heart Pine

Dense, resin-rich longleaf heart pine, reclaimed from historic Southern structures.

GENUINE · HONDURAN

Mahogany

The classic choice for grand entries. Stable, fine-grained and deep red-brown.

QUARTER-SAWN · AMERICAN

White Oak

Strong and weather-resistant, with striking ray fleck when quarter-sawn.

SELECT · AMERICAN

Black Walnut

Deep chocolate tones and flowing figure for a truly stately statement.

AROMATIC · CENTRAL AMERICAN

Spanish Cedar

Lightweight, naturally insect-resistant and wonderfully aromatic.

08 · DESIGN YOUR DOOR

Design Your Door — *custom chosen by you*

09 · OUR PROCESS

Our Process — *first sketch to final swing*

Four clear steps from consultation to installation, plus a brand statement.

OUR PROCESS

From first sketch *to final swing*

01

Consultation

We visit your home, measure every opening and listen to what you want your windows and doors to say.

02

Design & Selection

Detailed drawings, wood samples and hardware options, refined together until every detail is yours.

03

Milling & Joinery

Your lumber is selected, milled and joined by hand with traditional techniques made to last generations.

04

Finish & Install

Hand-finished to bring out the grain, then installed with care so it fits, seals and swings perfectly.

> “A door is the first thing a guest touches and the last thing you close at night. *It should be beautiful.*”

13 · SERVICE AREAS HUB

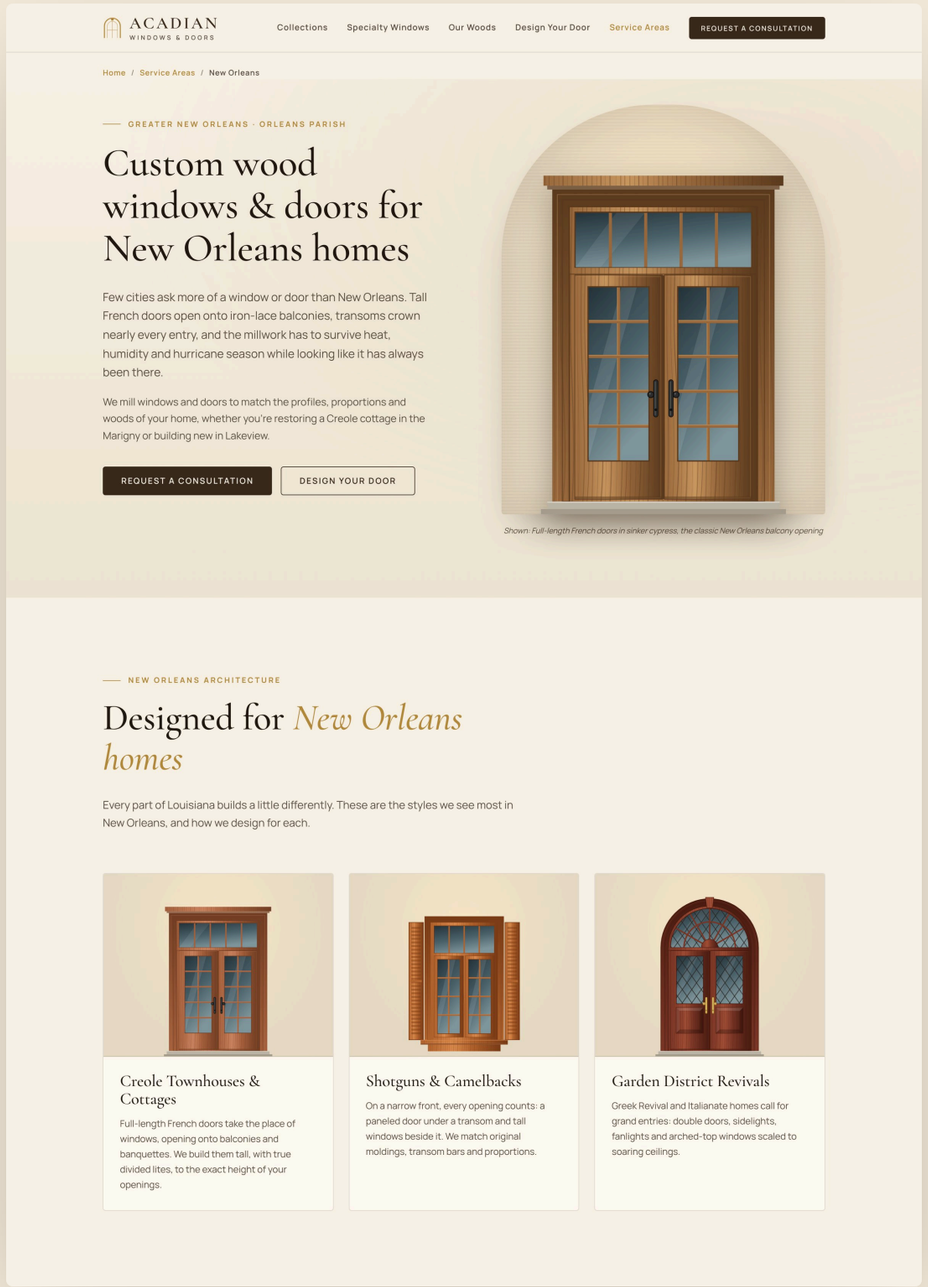

Service Areas Hub — *one page for every region*

A hub page listing all eight areas, with a catch-all for towns not yet listed.

Location Page: New Orleans — *local architecture*

Each city page opens with local copy, then the house styles common there and how we design for each.

Location Page: New Orleans — *climate, wood & neighborhoods*

Local climate advice, a recommended wood, historic-district guidance, and the neighborhoods and towns served.

CLIMATE & CRAFT

Built for New Orleans weather

Moisture is the enemy of wood here, and Formosan termites are a well-known threat across the city. Wood choice and joinery matter as much as design.

- Rot- and insect-resistant heartwoods like sinker cypress and Spanish cedar
- Traditional mortise-and-tenon joints that hold tight through humidity swings
- Finishes and sealing chosen for heat, sun and storm season

OUR PICK FOR NEW ORLEANS

Sinker Cypress

Cypress has been the wood of New Orleans millwork for generations. Sinker cypress gives you that same heritage, with the density of old-growth timber.

EXPLORE OUR WOODS →

HISTORIC DISTRICTS

Planning work in the French Quarter or another local historic district? Exterior changes there generally go through the Vieux Carré Commission or the Historic District Landmarks Commission. We can provide detailed drawings and wood specifications to support your application.

LOCAL PROJECTS

New Orleans project gallery

Photos and stories from real New Orleans-area installations, along with client reviews, will go here.

Concept note: local project photos and reviews are the strongest signals for local search. We'll add them as the owners provide them.

14 · LOCATION PAGE: NEW ORLEANS

Location Page: New Orleans — *local questions*

City-specific FAQs and links to nearby service areas, followed by a consultation form tagged with the city.

QUESTIONS

New Orleans questions, *answered*

- Can you match the original millwork on my historic New Orleans home? ×
  Yes. We measure your existing windows and doors, profile the moldings and muntins, and mill new pieces to match, so new work sits comfortably beside the old.
- Can you build French doors to replace a window onto a balcony? +
- What wood holds up best in New Orleans humidity? +

Location Page: Lafayette — *unique to Acadiana*

Every city page has its own content: Acadian cottages, Creole galleries and the story of local sinker cypress.

ACADIANA · LAFAYETTE PARISH

Custom wood windows & doors in Lafayette & Acadiana

This is the heart of Acadiana, and the country our name comes from. The Acadian cottage, with its steep roof, deep front gallery and simple, sturdy openings, is the architecture of home here, and it still shapes the best new houses being built today.

From restorations near downtown to new homes in River Ranch, Youngsville and Broussard, we craft windows and doors with the proportions and character this region is known for.

REQUEST A CONSULTATION | DESIGN YOUR DOOR

Shown: Gallery French doors in sinker cypress, a classic Acadian opening

LAFAYETTE ARCHITECTURE

Designed for *Lafayette homes*

Every part of Louisiana builds a little differently. These are the styles we see most in Lafayette, and how we design for each.

Acadian Cottages

Raised cottages with a full-width gallery call for paneled or half-glass doors, pairs of French doors onto the porch, and simple divided-lite windows.

Creole Plantation Style

Wide galleries with French doors on every bay and transoms above. Elegant openings designed to keep air moving through the house.

New Acadian & French Country

Today's custom homes borrow the old forms and add a statement: an arched entry, a round gable window or a sunburst over the door.

Location Page: Lake Charles — *unique to Southwest Louisiana*

Charpentier District Victorians, Gulf Coast raised homes and post-storm rebuilding.

Home / Service Areas / Lake Charles

SOUTHWEST LOUISIANA · CALCASIEU PARISH

Custom wood windows & doors for Lake Charles & Southwest Louisiana

Southwest Louisiana knows rebuilding. Since the hurricanes of 2020, many Lake Charles homeowners have been restoring and rebuilding, and a home's windows and doors are a chance to bring back character that's hard to find off the shelf.

We craft custom windows and doors for historic homes in the Charpentier District, new builds in Moss Bluff and Sulphur, and everything in between.

REQUEST A CONSULTATION | DESIGN YOUR DOOR

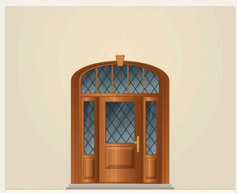

Shown: Segment-top mahogany entry with leaded glass and sidelights

LAKE CHARLES ARCHITECTURE

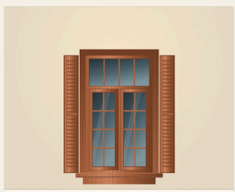

Designed for *Lake Charles homes*

Every part of Louisiana builds a little differently. These are the styles we see most in Lake Charles, and how we design for each.

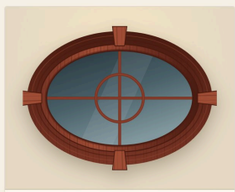

Charpentier District Victorians

The district takes its name from the carpenters who built it (charpentier is French for carpenter). Its Queen Anne and Victorian homes feature paneled entries, transoms and decorative glass, and we mill to match.

Gulf Coast Raised Homes

Raised homes and coastal cottages need openings that handle wind-driven rain and full sun without giving up their beauty.

Lakefront Statement Homes

Big views deserve big openings: arched transoms, full-lite French doors and oval or round accent windows.
